observed gap 0.50 °C
raw slope, unweighted
raw slope, population-weighted (= observed gap)
city dummies only, unweighted
city dummies only, population-weighted
city + elevation only, unweighted
city + log population only, unweighted
city + elevation + log population (OLS)
same, population-weighted
single-variable SEM (step-1 lambda)
full model, OLS (adds rent, 65+, under 18)
full model, SEM, step-1 lambda (reported)
full model, SEM, step-2b lambda
full model, SEM, iterated lambda
